[Was the B787-8 a mistake? - Page 3 - Airliners.net](#)

obviously not, as it is just a simple manual adjustment, I was thinking high modern new era cockpit, but the setting was actually low basic X-Plane. Another point (yes another) is the B787 requires the "Experimental Flight Model" to be selected off (Settings/General), if not the aircraft will not fly correctly, this was changed in v1.14...

End of Support means that Adobe no longer provides technical support or distributes runtimes. This policy affects product and security updates for all derivatives of a product or product version (localized versions, minor upgrades, operating systems, dot and double-dot releases, and connector products).

[Flight Operations](#)

Great looking sceneries, but A320 went from ok autopilot to not working autopilot. Every time i get a new update airplanes behave very erratically. No ILS capture, no auto pilot heading, takes about an hour flight to climb to FL390 on managed VNAV. Manual AP VS climbs are slow too. LNAV is hit and miss. Mostly A320 issues. B787 still has issues ...
